SUMMARY

Junior Frontend Developer with experience in Angular and React, building responsive web applications and integrating REST APIs. Focused on clean UI, user experience, and scalable frontend architecture.

SKILLS

Frontend: React, Angular, JavaScript (ES6+), HTML5, CSS3

State Management: Redux Toolkit

UI: Material-UI (MUI), Tailwind CSS, Angular Material

API: REST API, Axios

CMS: Strapi, Contentful

Tools: Git, GitHub, Postman, Swagger, VS Code

EXPERIENCE

HR Management System (2025 – Present)

- Developing a scalable HR platform using Angular and Angular Material
- Implementing full authentication flow: registration, login, password recovery
- Designing and building role-based access control (RBAC) for different user roles (Admin, HR, Employee)
- Working with Reactive Forms, validation, and error handling for complex forms
- Integrating REST API and handling authentication state
- Structuring application architecture with reusable components and feature modules
- Collaborating with backend developer to define API contracts and improve data flow
- Improving user experience by implementing clean, consistent UI with Angular Material
- Managing application state and optimizing performance for better user interaction
- Debugging and resolving integration issues between frontend and backend

Coffee Store Web App (2025)

Live: coffelane.vercel.app | GitHub: github.com/KaterynaRostovtseva/Coffelane-e-commerce

Developed a responsive e-commerce web application for ordering coffee and accessories.

Features:

- Product catalog with categories and filters
- Shopping cart and checkout flow
- User authentication and profile
- Admin panel for product and order management

Audio Player Web App (Feb 2024 – Mar 2024)

Live: music-player-reac.vercel.app | GitHub: github.com/KaterynaRostovtseva/music-player-react

Developed an interactive desktop web application for playing and managing audio files with playlist support and audio visualization.

Features:

- User profile editing (avatar, nickname, password)
 - Creating, editing, and deleting playlists
 - Drag-and-drop track management inside playlists
 - Track search functionality
 - Full audio controls (play, pause, next, previous, volume)
 - Audio visualizer synchronized with playback
-

EDUCATION

A-Level Ukraine — Frontend Developer Course (Jun 2023 – Feb 2024)

LANGUAGES

- Ukrainian - Native
- English — A2 (actively improving, able to read technical documentation)
